

SUMMA+Partners can only serve the **public interest** per **WOW+Learner** and any other **Learner+**, whilst we **all in** reverse **State+Aid** and **PIF-fraud** alike other acts violating our **EU+Law**

CSV+Data administered by **bailiffs** is central for any **AprovA+Report**. Justice must not only be done, but must also be seen to be done. So where an **all in MDDP-Test** is not seen done (in :ECLI:) justice is not (yet) done

360+Test uses some **valid all in MDDP-Test** restoring **similar** like on **1.3, 6.3, 9.1.1.3, 10.1.1 - 10.1.3, 10.2.3.2, 12.5, 13 - 13.4, 13.7 - 13.9, 13.10 - 13.18.1** plus **VAT+UBO** matching who **knew** - with **“Then we offer the advantageous free of VAT option”** unto **“through our company [in the CRKBO register”**

Our **AI+Green Deal** and **Learning+Pan-EU** naturally flow from the same **two principles** that shape our **ever closer UNION+**

Level playing+field is an **all in** must. Organizing this can only function **all in** based on our shared **public interest**. **Bailiffs** are ideally positioned to guarantee respect for our **Rule of Law**. Administering **AprovA+app** respects both **privacy** and **openness** - backing **restitutio in integrum**
